

BRICK **IN ARCHITECTURE**

From the Brick Industry Association

The 2011 Brick In Architecture Award Winners

BEST IN CLASS WINNERS

IN THIS ISSUE – DECEMBER 2011

Since 1989, the Brick In Architecture Awards have been one of the most prestigious national architectural award programs featuring clay brick. Architecture firms from around North America enter their best projects to be judged by a jury of their peers.

This year, architects from around the United States independently reviewed and scored each of the entries. Based on the technical and creative use of brick in meeting the aesthetic and functional design challenges, the Brick Industry Association is pleased to showcase the following projects which were chosen as the Best in Class in their respective categories.
